SUMMARY

Computer Science Engineering undergraduate with hands-on experience in AI/ML and Data Science, project development, and technical leadership. Skilled at building academic and technology-focused projects, leading student technical teams, and applying AI/ML concepts to real-world problems. Seeking an entry-level role in Software Development, AI/ML, or Data Science to apply strong problem-solving skills while continuing to grow professionally.

EDUCATION

B.Tech in Computer Science and Engineering

Expected 2027

Indira Gandhi Institute of Engineering and Technology (IJET), Kerala

CGPA: 6.54

TECHNICAL SKILLS

Programming: Java, C

Web Technologies: HTML, CSS, JavaScript

Version Control: Git, GitHub

Core Skills: Problem Solving, Technical Leadership, Project Development, Digital Technology

PROJECTS

AI-Based 3D Model Generation and G-Code Generator for Automated 3D Printing

- Built an AI-based workflow to generate 3D models and produce corresponding G-code for automated 3D printing.
- Connected AI-generated 3D model data to an automated manufacturing pipeline.
- Integrated software, AI, 3D modeling, and automation concepts into a single working workflow.

Local Event & Ticket Booking System

- Designed a web-based platform for discovering local events and managing ticket bookings.
- Built a simple, user-friendly interface for event discovery and booking.
- Applied HTML, CSS, and JavaScript to implement core front-end functionality.

INTERNSHIP

AI, ML & Data Science Intern

Retechnox Technologies — MSME Certified

- Gained practical exposure to Artificial Intelligence, Machine Learning, and Data Science concepts.
- Applied data-oriented problem-solving techniques to real-world scenarios.
- Worked across the data workflow: preparation, analysis, model development, and evaluation.

CERTIFICATIONS

- Claude Academy — AI Fluency Framework and Foundations
- AI, ML & Data Science — Retechnox Technologies

LEADERSHIP & ACTIVITIES

Technical Lead — IEDC, IIET | IEDC Kerala

- Led technology-focused initiatives and technical project development.
- Coordinated technical activities among student teams.

Technical Head — IIET Radio

- Coordinated technical operations and supported development of the college radio initiative.

NSS KTU CARE Flagship Program Coordinator

- Coordinated NSS KTU CARE flagship program activities.
- Supported planning and execution of community-oriented activities.

LANGUAGES

English, Malayalam

INTERESTS

Artificial Intelligence, Machine Learning, Data Science, Software Development, Emerging Technologies
