Software Development | AI/ML | Data Science

Computer Science Engineering undergraduate with hands-on experience in AI/ML and Data Science, project development, and technical leadership. Skilled at building academic and technology-focused projects, leading student technical teams, and applying AI/ML concepts to real-world problems. Seeking an entry-level role in Software Development, AI/ML, or Data Science to apply strong problem-solving skills while continuing to grow professionally.

WORK EXPERIENCE

Catalyst Educational Consultancy • Kannur • 05/2023 - Present

A Study Abroad and Educational Consultancy service

Marketing Manager • Full-time

Designed multi-channel digital campaigns targeting prospective students, increasing inbound inquiries and consultation bookings.

Omega Interior Solutions • Pathanamthitta • 01/2025 - 05/2026

A professional window treatment and installation service provider delivering customized residential and commercial solutions.

Interior Installation Technician • Part-time

- * Measured, assembled, and installed custom curtains, blinds, and drapery tracking systems with precise alignment.
- * Evaluated on-site mounting surfaces to select proper structural hardware, brackets, and fasteners.
- * Inspected and troubleshooted manual or motorized alignment issues during setups to ensure flawless mechanical operation.
- * Communicated directly with clients to demonstrate finished product operations, care guidelines, and system adjustments

Retechnox Technologies

AI, ML & Data Science Intern

- Gained practical exposure to Artificial Intelligence, Machine Learning, and Data Science concepts.
- Applied data-oriented problem-solving techniques to real-world scenarios.
- Worked across the data workflow: preparation, analysis, model development, and evaluation.

EDUCATION

B.Tech in Computer Science and Engineering

Indira Gandhi Institute of Engineering and Technology (IIET), Kerala • Kerala • GPA: 6.54 • 01/2027

CERTIFICATIONS

ECU Tuning and Remapping • 11/2024 - 11/2024

Techmaghi

Cyber Security and Ethical Hacking • 07/2024 - 07/2024

Qnayds

Cyber Security and Ethical Hacking • 11/2023 - 11/2023

PROJECTS

AI-Based 3D Model Generation and G-Code Generator for Automated 3D Printing

- Built an AI-based workflow to generate 3D models and produce corresponding G-code for automated 3D printing.
- Connected AI-generated 3D model data to an automated manufacturing pipeline.
- Integrated software, AI, 3D modeling, and automation concepts into a single working workflow.

Local Event & Ticket Booking System

- Designed a web-based platform for discovering local events and managing ticket bookings.
- Built a simple, user-friendly interface for event discovery and booking.
- Applied HTML, CSS, and JavaScript to implement core front-end functionality.

VOLUNTEERING & LEADERSHIP

IEDC, IIET | IEDC Kerala

Technical Lead

- Led technology-focused initiatives and technical project development.
- Coordinated technical activities among student teams.

IIET Radio

Technical Head

Coordinated technical operations and supported development of the college radio initiative.

NSS KTU CARE

NSS KTU CARE Flagship Program Coordinator

- Coordinated NSS KTU CARE flagship program activities.
- Supported planning and execution of community-oriented activities.

SKILLS

Programming: C, Java

Web Technologies: CSS, HTML, JavaScript

Version Control: Git, GitHub

Core Skills: Digital Technology, Problem Solving, Project Development, Technical Leadership
